"I recently watched this powerful DVD with 150 primary school children and listening to their reaction afterwards was very powerful. It highlights the great work Show Racism the Red Card does and encourages children to question why racism takes place at all. I think Show Racism the Red Card are conveying a strong anti-racist message in an understandable and memorable way."

"The National Union of Teachers is proud to work with Show Racism the Red Card to address the growing issue of Islamophobia in society. The Islamophobia film was launched at our HQ and I believe it will be an invaluable resource for teachers looking to challenge racism. The use of high profile footballers makes this an engaging and powerful tool for challenging racist attitudes, while the new education pack is an easy-to-use resource aligned with the National Curriculum that provides factual information to fight myths and counteract stereotypes. I commend this publication to all schools".
